***Election/Restrictions***

1. Newly submitted claims 90-103 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claim 90 directed to a method for routing a message, message set or a session setup request in a communication network from a first network of a first type to a second network of a second type, wherein the first network is a switch telephone network, which is different than the original method claim 42. The same remark applies to independent claims 91, 92, 94, 98 and 99.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 90-103 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Conclusion***

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
